Newsletter #82 – September 2018

Evolution of our web site

The summer did not allow us to continue the necessary developments for our web site, due to lack of availability and too many other time-consuming tasks, including some maintenance operations that was not expected.

We had to migrate our web server and database to a **new web hosting provider** for several reasons:

- Our web provider TIERPOINT informed me that they will be stopping soon our web hosting activity to focus on other web services;
- We had to review and comply with the **General Data Protection Regulations (GDPR)** including among other items the implementation of a SSL certificate for web data encryption;
- Also, TIERPOINT being based in Seattle, USA, it made sense to move to a **web provider based in France**.

After careful thinking, I made the decision to migrate all our services (web and mail) to **DINAO** who was managing already our domain names. DINAO is based in Marseille.

Please note that some internet links have changed, and you may be required to update your favorites stored in your Internet browser.

General Data Protection Regulations (GDPR)

Following the entry into force of the General Data Protection Regulations (GDPR) on May 25, 2018, the necessary adjustment works have been carried out to reach compliance with the European legislation:

- A **Personal Data Protection Policy (PPDP)** has been created and published on our web site – this document describes the data that are collected and processed, as well as your rights;
- The **General Conditions of Use (CGU)** for our site have also been updated to reflect our new data protection policy;
- An **SSL certificate** has been subscribed to encrypt all data exchanges with our web site – the use of https instead of http is indicated to you by your web browser.

You will have to acknowledge these updates at your next logon to our web site. These documents are also available to everyone here: <https://www.procida-family.com/US/join.htm>

I also invite you to review your user profile and update it if required.

Thank you for your attention.

Shopping

Following my last trip in Procida this summer, you will find several new books in our shop on the web site :

- **PROCIDA** - Scigno di cultura e tradizioni (L'isola vista dai suoi studenti)
- **PROCIDANI** (quasi) dimenticati (Giacomo Retaggio)
- **PROCIDA** – Architettura e paesaggio (Salvatore Di Liello, Pasquale Rossi)
- **VIVARA** – Storia e insediamenti archeologici (Carla Pepe)
- **NAPOLI** Segreta (Antonio Emanuele Piedimonte)
- History of **ISCHIAN** earthquakes (Elena Cubellis, Giuseppe Luongo)

You can get those directly from the shops in PROCIDA (Nutrimenti or Libreria Graziella) or in ISCHIA (Imagaenaria in Ischia Ponte).

You may also order those books by writing to the Association. The quantity currently in stock is indicated on the web site, otherwise we will get a copy at our next trip and send it to you then.
