

### Covid-19 ...

In Europe, things are getting slightly better, but not enough. The fear of the virus remains very present and does not yet allow us to resume a more normal life with travels and meetings...

Who can say today what tomorrow will look like... and whether we can take back the thread of our lives and our projects where we left them almost a year ago?

To this day, all I am sure of is that I cannot yet say whether our General Meeting in Procida on May 4 will take place. However, I still hope so and I am ready to organize everything for you at the last minute, but only if the overall situation has really improved and no risk remains.

Looking forward to these better days, take good care of yourself and your loved ones, follow the health guidelines and take the opportunity to continue your research.

### Renew your membership in 2021

The renewal period of your membership is already open. This is a reminder as your current memberships will expire on 31 December.

Please note that the annual fee rates have not increased since the founding of the Association in 2003: 40 Euros or 60 Euros as a Benefactor.

Do not hesitate to reach out to us for any questions or problems with your research, to find together possible solutions.

Thank you in advance for your support.

I thank all the volunteers who are doing this precision work for the benefit of our Grande Famille today and thus participate in the preservation of our genealogical heritage.

### Death of Noël TRANI

On October 27, Noël passed away. He had been a member of the association since 2009 and it was on the occasion of our 3<sup>rd</sup> General Meeting in Forio (Ischia) that I had the pleasure of meeting him.

La Grande Famille allowed us to find ourselves cousins of the same Italian family in Algeria.

Our condolences with affection to his family in the memory of this reunion.
